Rocio Sainz-Maza

Software Developer

My first crush on code was at the university, which led me to do a master's in Web and Graphic Design. After finishing it and some great approaches to coding files, I started learning PHP and JavaScript. Being a self-learner taught me much about code and how it runs, but I needed something more structured like the Northcoders boot camp where everything made more sense.

TECHNICAL SKILLS

LANGUAGES:

PHP, JavaScript, jQuery

FRAMEWORKS:

React, Angular, Laravel, React Native, Socket.io

FRONT-END:

HTML, CSS, Bootstrap, SASS, LESS
